TREASURY JUMPS IN FIRST COLUMN IN DEPARTMENTAL

Navy Yard and Interior Bowlers Tie for Second Place.

During the past fortnight's bowling in the Departmental League, three teams have shifted places, Treasury making the best sprint.

the best sprint.

By trimming the Capitais for the three scheduled games, and also three postponed games, together with two games from the Warriors, the Money Changers jumped into the first division, having made a gain of 111 points in percentage.

The Bureau passed the Commissioners, and is now in fourth place, the latter dropping to sixth.

Agriculture continues in the lead, but the Interiors are going strong, and easily lead in total plus tumbled.

For another week the candidates will do only light, easy work, out Turner and Parker of doors. It is likely that, following tne example of Princeton, Cornell, and Harvard, the G. W. C. A. gymnaslum. From the present outlook the downtown university will have this year the largest track squad in its history, with not less than half a hundred men trying for the different events.

Interest Aroused in Cross-Country.

That there will be nearly fifty entries for George Washington's New Year handicap cross-country run seems certain from the number of inquiries re-ceived by Manager Fleming. The Buff and Blue itself has a squad of fourteen men working hard to get into shape for the four-mile jaunt across the northwestern corner of the District. These are the men now training: Captain Gill, Wenderoth, Holmes, Flem ing, Falconer, Birney, Seiler, Carl, Clagett, Brame, McFarland, Ball, and

That the inaugural indoor games of the Hatchetites will draw a flattering list of entries from high schools, prep schools, colleges, and clubs of Washington, Baltimore, Richmond, Philadelphia, and small towns in Virginia is assured. The local high schools will have especially large and strong ilsts of entries. Dr. Hudson has large squads out at both the Western and Business Schools, and Manager Fleming AnSchools, and although the Technical Schools, and although the Technical School will not officially enter a team, practically all the track and field athletes of the school will be in the various events, both scholastic and open. At the Central School there are between fifty and sixty boys at work every day, and Eastern has almost as large a squad as last year. At least Sented.

The announcement that the George Washington University Athletic Association is going to hold indoor games at Convention Hall on January 25, has stirred up tremendous interest in track and field athletics among the students and alumni of the Buff and Blue institution. Manager Fleming, of the

expected, there will be more of these events contested, and more teams comexpected, there will be more of these events contested, and more teams compéting, in Convention Hall, on the night of February 15, than have ever been

Besides the races for school boys and novices, there will be at least three colleges and two club relays on the pro-

and negotiations are pending for seven others, arrangements for which will be completed immediately after the Christmas holidays. These are the races now on the program: A midget championship for school boys, no boys to be taller than four feet six inches; a race for teams, composed entirely of school bey novices; grade school champion-bey novices; grade school champion-ship, open to all grade schools in the District; a championship for junior clubs of the District, with an age limit of sixteen years; a match race between of sixteen years; a match race between the Episcopal High School, of Alexandria, and the Woodberry Forest School, of Orange, Va., to decide the scholastic chempionship of the Old Dominion, and Root a race for the Sunday school cham-pionship of the District, also with an age limit of sixteen years.

Sunday School Races.

The distance for all these events, except that between the two Virginia schools, will be 600 yards.

The Sunday school championship and the novice event were added to the program last week. This is the third year that the Sunday schools of the District have had a chance to decide the relay champion in their own class, but never before in any indoor games has there been a relay race, in which every mem-Plummer and Nevins, minus 8. ber of all the teams must be novices. The Washington contingent is looking. It has been put on the program espe cially for the encouragement of the school boys who are not quite fast enough to make places on the big teams.

New 1,000-Yard Event,

In addition to these relays a 1,000-yard handleap run has been added to the Federal games program. There are a number of middle distance runners in the South Atlantic district who have never before had a chance to show their speed in any events except the quarter and half mile runs, but for whom the mile is too long, and a number of mile runners not quite fast enough for the shorter distances, for whom the new distances will be a common meeting ground.

Levering of the Baltimore City College, he said his school is much stronger than usual in track athletics this year and will send to the Federal Games the biggest and best team it has ever developed. "We will have men in every event in which points count," wrote Mr. Levering, "and we are out to beat the Central High

we are out to beat the Central High School to the trophy."

The candidates for the Washington School for Boys team have been doing light work out of doors for two weeks under the direction of Trainer Fontaine. After the holidays they will begin hard work on an out of door board track at the school. The Washington School has challenged the Army and Navy Prep for both a senior and junior relay race to be run at the Federal Games, and it is understood that the Soldiers and Saliors will accept.

That relay racing is one of the most popular events in school and college sports is evidenced by the number of inquiries in regard to the relays in the Federal indoor games.

When arrangements are completed for all the races already asked for, it is expected, there will be more of these sports.

DAILY PRACTICE

In order to complete a season of victories, the All-Navy football team is practicing hard every evening on the plot in rear of the seamen's quarters at the Navy Yard for the game with the All-Army eleven.

The sailors fully understand that in order to beat their heavier antagonists they must develop speed and ability to hoodwink their opponents. To gain this effect two hours of hard practice is gone through every evening.

Cutting, the star right end, whose arm was broken in the game with the Mt. Washingtons at Baltimore, is back from the hospital in fine shape. He will go back to right end, while Ganity will do the quarterback stunt.

The jackles, it seems, know the game, and an excellent game is anticipated for Christmas morning, and both teams expect thoroughly to satisfy the football enthusiasts of this city.

DRISCOLL COMING TO FIGHT ATTELL FOR WORLD TITLE .

Man Who Beat Bowker After Featherweight Title.

By JEFF THOMPSON.

NEW YORK, Dec. 14.—Abe Attell is not only a tighter of rare ability, but he has the money sonse well developed. This was demonstrated by the manner in which he played his cards with Jimmy Coffroth. Since Owen Moran beat Frankie Neil so handily a fight between the little Englishman and the featherweight champion was in demand. Coffroth wanted the fight, and Attell had a pretty good idea as to just how bad he wanted it and about how much there ought to be in it. He held out for his full share, and he will get

I can see where he is right. It does look absurd for a scrap of a fellow, whose brains are in his fists, to get the salary of a college president for a few weeks' exercise and an hour's hard work, but so long as the public is willing to pay for it I don't see why the fellow that fights should not get at least as much as the promoters.

I understand the winner of the Attell-Moran scrap will have other business on his hands at once. Jem Driscoll, it is said, is on his way here looking for trouble. Driscoll beat Bowker, who had previously beaten out champion Frankle Neil. It is a fact that Moran has very little to say about Driscoll. He kept harping on the fact that he was behind Bowker the night that he beat Neil, and that he got the idea of going into the American's tent and kicking up rumpus from that night's observa Probably Attell will be the man to eat Driscoll,

Burns is to meet Johnson, if any club will offer a big enough purse and the big smoke don't kick at the terms. Good. My opinion of Johnson as a fighter is My opinion of Johnson as a fighter is pretty well known by the readers of this column. If I am mistaken in my estimate of him I would like to know it. A fight with Burns would pretty well establish his status. If by any chance he should win the fight, which I hardly regard as possible, it would be up to Jeffries to come out of his hole again and we would have a real battle for the champlonship.

In common with other admirers of a good fighting man I would like very much to see Billy Papke get on a long battle with one of the crack-a-jacks in his class. In the middle West, Papke is regarded as the best welter weight now fighting. Perhaps he is. The fight scheduled for December 30

As the plans now stand, the men meet at 154 pounds at 3 o'clock on the day of the fight, to battle for 50 per cent of the gross receipts, 75 per cent of this to go to the winner, and the loser to take the rest as balm for his bruises. Kelly has been fighting for the last eight years and in that time has gone twice to a draw with Tommy has gone twice to a draw with Tommy Burns, besides meeting about all the other light heavyweights of the country with more or less success. Papke, on the other hand, has been fightling only a year, but from the day that his advent as the "Illinois Thunderboit" was announced he has met many good men and has yet to meet defeat.
